Dear Sir:

This paper is submitted in response to the Restriction Requirement mailed on November 7, 2002, setting a one-month period for response.

The Examiner found that the present claims are directed to thirteen distinct inventions and required restriction to one under 35 U.S.C. §121. Applicants hereby elect Group II, claims 1-14 and 22-27 with traverse.

Independent claims 1, 28, 46, 57 and 59 are generic to ErbB4 antagonists. However, in making the restriction, the Examiner did not consider any claims to be generic to an ErbB4 antagonist, but rather considered the claims to be directed to antibodies or immunoadhesin. Applicants submit that it would not be an undue burden on the Examiner to consider the generic claims as written and that the distinction between antibodies and immunoadhesins would more properly be addressed through an election of species requirement.
